

## Phone Book project by Bash scripting for Open Source (ITI-39)

### Group 4:

#### 1: Mona Shehata Mohamed Elshennawey

- ➔ Making the main files and the main script for all functions.

#### 2: Ahmad Muhammed Sha'lan

- ➔ Linking files and adjusting the conditions.

- We preferred using “**sed**” instead of “**awk**” because we find it more accurate and easier for our scenario.
